BID NO.: 212157-004

LABOR RATE PER HOUR @ \$44.50

NO CHARGE FOR EVALUATION

BID SPECIFICATIONS

Erie County Purchase Division is seeking a qualified electrical motor repair shop to repair electric motors in the fractional to 500 HP range, including UL Certified, explosion proof repairs.

Bidder must be a vendor whose principal business is electric motor repair, does work in house and has sufficient test/shop equipment, qualified personnel, and UL Certifications required for this bid.

Bidder must submit, with bid response, a list of test/shop equipment that they have in their shop.

Work will not be subcontracted without the prior written consent of Erie County Purchase Division.

The successful bidder must provide proof of insurance as per requirements of Erie County Standard Insurance Classification "A".

Work is subject to New York State Labor Law, Article 8 Section 220 regarding labor rates.

Bidder must complete all prices requested on pages 2D and 2E.

Questions regarding motors or requirements should be directed to Kevin Kaminski, Erie County Sewer District #3. 716-823-8188.

SPECIFICATIONS

1. Electric Motor Repair Service for various Erie County departments for the period of June 1, 2012 through May 31, 2013, with the option to renew for two additional one-year periods.
2. Bidder must have experience, equipment, personnel and inventory necessary to service/repair motors of various sizes from fractional to 500 HP range, including UL Certified explosion proof repairs.
3. Bidder must have been in the electric motor repair business for at least the last five consecutive years. References of at least three organizations for who such service has been provided during the last five years must be included. Such reference must be of similar size and scope as that of Erie County.

Reference must include: 1) Company name
2) Phone number
3) Contact person

*See
attached*

The county reserves the right to exclude any bidder who in the opinion of the county or any of its divisions, has not performed up to the expectation of prior contracts or work performance.

4. Vendor must **pick up and return motors.** There is to be no additional charge for pick up and return of motors.
5. All repairs must be completed within 10 work days of receipt of item by vendor. If unusual circumstances are encountered that make it impossible for repair to be completed within the 10 work days, the vendor must notify the end user immediately.
6. All repairs will be guaranteed for a minimum of one year. Vendor will be required to repair or replace all defects in materials or workmanship which may be discovered during the warranty period. There will be no charge for this work.
7. All parts and materials used in repair shall be new and unused. Remanufactured items may be acceptable in some cases, but only with the prior approval of the end user.
8. The County does not guarantee any specific number of motors that will require repair service. All repairs will be on an "as needed" basis during the award period.
9. Upon receipt of motor for repair, the vendor will tear it down **for evaluation. Vendor shall then provide the County Department of origin with a final job quote for repairs, including all costs for parts, materials and labor. Quote must be consistent with all job costs as quoted on bid pricing pages. Quote must be broken down into labor, parts, materials, and include a detailed scope of work to be performed. Quote to be faxed promptly to County Department of origin. Repairs will not be performed without the prior approval of the County Department of origin.**

Vendors may charge a fee for the evaluation "only" of a motor that the county chooses NOT to repair. If the county approves the repair of a motor, this cost is included in the repair charges.

SPECIFICATIONS (CONTD.)

10. The decision to proceed with repair will be made by the end user based on the job quote given by the repair shop. **Work is not to proceed without authorization from County Department.**
11. If, in the process of completing repairs, it is determined that the job will exceed the quote given, **the vendor must so inform the end user before continuing work.** Provide a supplemental quote for the additional work, including all parts, materials, and labor required to complete the repair. **Vendor is to include a brief narrative to explain the need for the additional work with the supplemental quote.**
12. The County department must give approval for such work to continue. If work is not to continue, the motor should be returned to the County department of origin.
13. The vendor must provide a service report on all repairs. Such report must clearly indicate a detailed list of a problems found, repairs made, parts replaced and number of labor hours. "The service report shall also include the megger reading and current draws before and at the time of completed repairs."
14. **Vendor invoice must show detail of all charges.** All parts and materials billed must be detailed. Invoice must list all parts and materials used and give a unit and extended price for each item. The number of hour for labor, rate per hour and total labor charge must also be separately detailed on the invoice.
15. **The labor rate per hour charged will not exceed the rate quoted on this bid. Any invoice submitted that does not show breakdown of labor and materials or, that exceeds the labor rate per hour quoted in this bid, will not be paid.**
16. Total charges must not exceed the cost of work as quoted in this bid.
17. The job costs quoted in this bid must remain firm for the entire award period.
18. All repairs to be completed in accordance with applicable industry codes and standards.
Vendor must include wiring labels for motor leads.
19. All explosion proof motors must be repaired by a UL Certified repair facility. **Certification must be supplied with bid response.** Such motors presented for repair must be certified for use in explosive environment. **Vendor must comply with all codes, standards, and laws regarding repair of such equipment and provide certification for each explosion proof motor repair.**
20. The County has many different manufactured brands of motors. Any County-owned motor may be Presented for repair whenever needed during the award period.

Vendor must include a list of any manufacturer brands that they are unable to repair.
